MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE

Report by MCA HOD

This program was inaugurated at 10:00 AM. Now a day's students are very enthusiastic to learn anything via multimedia. So to aware and awake them this workshop was conducted for faculty.

This program was governed by the eminent resource person Dr.Ghanta Subbarao, President of Institute of Electronic Governance (IEG) formed by the Government of Andhra Pradesh. He addressed the faculty about Teaching learning Methodologies, emphasis on doing projects towards real time applications and placements. The other resource persons who adorn this workshop are Dr Sailaja, Assistant Commissioner, Prohibition and Excise (Distilleries) Hyderabad, Prof T.Sreenivasulu Reddy, Associate Professor, School of IT, JNTU H and Mr. Ramesh NBN , Chief Training officer , Open KITE.

With all their experiences they trained the faculty to impart that knowledge to the students on Teaching Learning Methodologies, Virtualization and Learning Management through open source -Moodle, its administration and use, preparation of course websites and Discussion on producing Employable students.

They visited the common facilities in the institution and are satisfied about the arrangements and equipment available at the laboratories. They advised the faculty to go for open source software's. Prof Subbarao & Mr Ramesh stressed the need of Continuing education programs and in house student projects. Internship, under graduate research programs and installation of plug and play software incubation centers should be given paramount importance. As MITS is having well qualified and experience faculty, suggested to establish Research Centers in various thrust areas. College Principal inaugurated the program and narrated the developments in MITS.

Prof Subbarao & Dr. Ramesh gave live examples on various open source tools. They have demonstrated Zorin (Open Source tool), Raptor (tool for drawing flowchart and tracing the program). Hands on training are given to CSE, IT & MCA faculty. The features of open office, Programming and debugging tools are explained during the two days.

The Heads of CSE, IT & MCA, Dean Academics Dr M.Raja Reddy, Dean R&D Dr. B.Venkata Ramana faculty from CSE, IT & MCA participated. Later he interacted with the Placement officer Mr. Jyothish and inquired about the placements and in house training given to students. He insisted the training and placement officer to train students on employability skills, arithmetic ability, group discussions and soft skills from first year on wards.
